FRIDAY – ONCE A MONTH ON FULL DAYS**September 16 October 14 November 11 December 2****FILM & PHILOSOPHY: SERIES 1**

I am pleased to offer Film and Philosophy again this year. I loved hearing last year about the ways it inspired creativity, sparked great conversations, opened the kids' minds, and enhanced their appreciation for literature and film! For those not familiar with F&P, we watch great movies over pizza and beverages, then dissect them through discussion of themes, symbolism, imagery, philosophical ideas, cinematography, and questions raised by the films. We delve below the plot of a movie to explore what lies beneath the surface, often finding layers of meaning you might not have realized were there, even if you'd seen the movie before. During this session, some of the movies we might watch could include: Powder, Phenomenon, The Majestic, an anime movie (probably Spirited Away or Howl's Moving Castle), and a couple of Outer Limits Episodes. I also incorporate movies the kids suggest as long as they are good candidates for this series. *Parents, FYI: some of these movies are rated PG-13.*

Pizza and beverages are included in the price.
